Title of Document:	Request for Change	Issue No.	G21-05172	Rev.	0
Customer:		Issue date:	August 25, 2021		
Title subject:	PBV connector Socket housing: Addition of resin material		Revision date:		

Please take note that we would like to add the resin material for the PBV connector socket housing as follows.

1. Target product and Part number

PBV connector Socket housing: PBVP-*V-S, PBVP-*V-S (S)

Note) A number showing number of circuits is indicated in *.

2. Timing of the addition

Production is scheduled to start in October 2021.

3. Details of the change

The housing resin material for the aforementioned products shall be added as follows.

As for the additional product (made of additional resin), until UL certification is obtained, "(SU)" as identification symbol is suffixed to the conventional part number in order to distinguish with the current product.

Identification symbol "(SU)" will be deleted after obtaining UL certification, and unify to original part numbers and labels.

Item	Current product	Additional product
Label		
UL standard	UL certified products	Under application for UL standard acquisition
Resin material maker	Asahi Kasei Corp.	KINGFA SCI.&TECH.CO., LTD. (金尧科技)
Material name	PA 66	PA 66
Part No.	PBVP-*V-S, PBVP-10V-S (S)	PBVP-*V-S (SU), PBVP-10V-S (S)(SU)

4. Reason for the change

This change will be carried out in order to improve availability of housing resin material.

Your thought understanding and consideration would be very much appreciated.
