

Title of Document:	Request for Change	Issue No. G21-08189	Rev. 0
Customer:		Issue date: December 6, 2021	
Title subject:	Insulated closed-end solderless splices: Addition of resin material	Revision date:	

As we have been informed that the resin material manufacturer will discontinue the current resin material used for insulation-closing solderless splices (V-0 grade), the resin material will be added as follows.

1. Target product and Part Number

Insulated closed-end solderless splices (V-0 grade)	CE-100V
	CE-230V
	CE-550V

2. Timing of implementation

This change will be carried out from mid-February 2022 after customer approval.

(CE-100V: May 2022 or later)

(CE-230V: From mid-February 2022)

(CE-550V: August 2022 or later)

3. Contents of the change

The resin material of the subject products shall be added.

JIS/UL/CSA certification for additional products (made of additional resin) is currently in the process of applying.

	Before change	After change
Manufacturer	Ube Industries Ltd.	Toray Industries, Inc.
Grade	1022SE	CM1014-V0
UL File No.	E48133	E41797

4. Reason for the change

Since the current resin material manufacturer will discontinue the target grade, new resin material will be added.

Your thought understanding and consideration would be very much appreciated.

-End-
