

Title of Document:	Request for Change	Issue No. G21-03685	Rev. 0
Customer:		Issue date: June 2, 2021	
Title subject:	Switching time for our affected products of EU RoHS Directive exemptions	Revision date:	

As a measure due to RoHS Directive lead exemption expiry, we had been preparing for switching toward the expiration date of scheduled July 21, 2021.

However, some of the following products will start production after July 2021 because evaluation was delayed due to difficulty in obtaining new Pb-free materials, and it took time to process the new material.

●**Products in delay switching time (List of target products: Appendix 1)**

As for the following target products 1) and 2) that the switching schedule will be changed, we will reapply with the updated version of "Request for change".

Regarding the D-sub connector / Grounding adapter, since the schedule will be significantly delayed, we will reapply with the updated version of "Request for change".

We will continue to supply the current products for the time being.

Connector name / Part name	Request for change (No.)		Reschedule for switching time
	First edition	Updated version	
1) D-sub connector / Hexagonal lock screw	G20-06563	<u>G21-03673</u>	May 2021 ⇒ Dec. 2021 (Screw unit: Oct.)
2) JAMP connector / Hexagonal lock screw	G20-06564	<u>G21-03656</u>	May 2021 ⇒ Oct. 2021
3) D-sub connector / Grounding adapter	G20-09096	<u>We will report separately.</u>	Under discussion

[EU RoHS Directive]

Regarding "Exemptions for containing lead" in the RoHS2 Directive, an extension of lead exemption Number: No: 6(a)- I 6(b)- II /6(c), which are the target of our products has been applied for under joint signature by major organizations.

Therefore, the exemptions will not expire after July 21, 2021, and the expiration date will be re-considered. Since there is definitely a decision grace period of 12 months at the shortest and 18 months at the longest, the current products can be used without any problem until July 21, 2022 as "RoHS compliant" at least.

We deeply apologize for the delay in starting production.

Your thought understanding and consideration would be very much appreciated.

G21-03685 Appendix 1

1) No change in switching schedule

No.	Connector name / Material change parts	Part number	Switching schedule (Implement after your company approves)
1	D-sub connector / Mold cover support pin	J-MC15A (B)	June 2021
2		J-MC15A-4 (B)	
3		JK-MC15A-3 (B)	
4		JK-MC15A-4 (B)	
5	MS connector / Lock nut	(G)MSY-20DS-D101-21 (B)	
6		MSY-50S-1101-21 (B)	
7	RPJ connector / Rivet	RPJ-20PRW (B)	

2) Change the switching schedule

N o	Connector name / Material change parts	Part number	Switching schedule (Implement after your company approves)
1	D-sub connector / Hexagonal lock screw	JHEY-9S-1A3A14 (LF)(SN) B	December 2021
2		JHEY-9P-1A3A (LF)(SN) B	
3		JHEY-9P-1A3A13 (LF)(SN) B	
4		JHEY-9P-1A3A14 (LF)(SN) B	
5		KHEY-15S-1A3A (LF)(SN) B	
6	Screw unit / Hexagonal lock screw	HFS-2.6S-B1WM (B)	October 2021
7	JAMP connector / Hexagonal lock screw	AFS-2.6S-B13-6 (B)	October 2021
8	D-sub connector / Grounding adapter	KES-15S-2A3A (LF)(SN) B	Under discussion
