

Title of Document:	Request for Change	Issue No. G21-06728	Rev. 0
Customer:		Issue date: October 8, 2021	
Title subject:	HTE connector Male housing: Change of LCP resin material manufacturer	Revision date:	

Please take note that we would like to change the material manufacturer of the LCP resin used for the HTE connector Male housing, due to the sales restrictions of LCP by current supplier as follows.

1. Target product

ST02B-HTEK-A-TR
ST02B-HTEH-B-TR

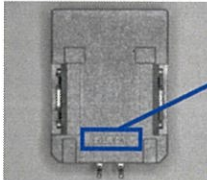

2. Timing of the change

It will be switched sequentially from the production of November 2021.

3. Contents of the change

The resin material manufacturer of the aforementioned subject products shall be changed. In addition, the points shown in the table below will change due to the change in resin manufacturer. As the product part numbers will follow as usual, they remain unchanged.

	Before change	After change
Resin material manufacturer	A Company	B Company
Glass content	30%	35%
Marking on the housing ※ Product board side view	 <div>JST K-A</div>	<div>JST.K-A</div> <p>Identification symbol</p>
Product Part No. (Example)	ST02B-HTEK-A-TR	ST02B-HTEK-A-TR

※: "." mark shall be added to the marking on the housing as an JST internal identification symbol. However, this will not be reflected in the approved drawing. (Agreed with Toyota Motor Corp.)

4. Product performance

There is no influence on the product performance, and the changed product (made of changed resin) is equivalent to the current product.

5. Reason for the change

Due to difficulty of procuring the current resin material due to the sales restrictions of LCP by supplier.

Your thought understanding and consideration would be very much appreciated.

-End-
